Extra : shrink wrapping - 0,25 euro, sealbag 30 mic - 0,15 euro, printed inner sleeves, inserts, stickers, download cards...		
* Prices are approximate. Final price will be calculated after polygraph and audio files transfer.		
* VAT and delivery are not included in price.		
* labels and covers CMYK 4/0.		
* The sound quality of your vinyl will match the transferred file! But we can make so-called test presses in the production process. The test press is a vinyl with a white center label. This comes without final typographic covers. It costs an additional 40 Euro + VAT + postage . Generally, we will send you 5 test pressings - with blank white labels, which you will need to listen to and approve. Once these have been approved, we can continue with the rest of the production. If, however, you are not happy with the test pressings, then we need to find out what is actually wrong with the sound or identify any other possible problems. If the problems have occurred due to error on Semikol's side, we will produce new metalwork (stampers) . If the fault is on the customer's side (due to a badly prepared master source, for example), then the customer will be liable to pay for new process. We will remake the stampers for free only in case of our mistake. This will increase the lead time.		
* We do not produce splatters vinyls or marbled vinyls.		
* We start work only after full payment for the order and providing us with all the files, including artwork.
